- Standard tripod socket permits attachment of lighting tray

Take your XZ-2 under the sea!

Leaving your high end compact camera on the beach is history now. With the especially for the XZ-2 designed underwater case (PT-054) your XZ-2 can be taken underwater up to a water pressure equivalent to a depth of 45 metres. This case is perfect for fascinating underwater photography or capturing the thrill of water sports and activities. With its durable, high quality polycarbonate construction, it protects the camera from water while also cushioning it from knocks and bumps on land. Complete control of photo functions, such as zoom and flash mode, is also possible. The PT-054 features the optical connection of 2 underwater flashes. In addition you can attach the Olympus macro and wide conversion lenses directly onto the underwater case for outstanding underwater pictures.
